MAZE GAME

- It is a 2 player game
- The maze is IITD Map

Player 1 or server will play the role of student.

Student has to collect all the coins  present on the roads of IITD map.

Player 2 will play the role of dog.

Dog's aim is to bite the student.

If dog bites the student then, student's one life will be lost. Student has total 3 lives

MAZE GAME

Winning Condition

- Student has to collect all the coins before losing all of his lives

Losing Condition

- Dog has to bite him before the student take all of the coins
- Student have 0 lives left.

MAIN MENU

It has 2 types of game mode.

Clicking on Single Player will start a single player game.

Clicking on Double Player will start a 2 player game, it will ask you to be server or client.

The Rules option has the rules of the games.

The credit option has our names.

2 Player Game

Click on the “Double Player” option .

Then you need to press “s” or “c” on the keyboard to create the server or the client respectively.

Note: the server needs to be formed first then only client should join as the 2nd player.
